What can you expect?

Peace and Conflict Resolution Conference [PCRC] is a platform for global stakeholders to gather, network and discuss international relations, peace and conflict management.

PCRC offers a unique, culturally and professionally diverse environment, carefully designed to foster personal and professional growth. This highly exciting and challenging international conference on peace and conflict resolution is open to any and all gender, religion, race and beliefs as our diversity in perspective is what helps broaden our knowledge, understanding and actions on the subject at hand.

Dates & Location:

PCRC2020 will take place from 3rd - 5th of December 2020. We were looking forward to seeing everyone in Bangkok in December. However, safety and well-being of our participants is our first priority. Based on growing concerns related to the COVID-19 pandemic and its impact on our international community's ability to travel to the conference, this year's Peace and Conflict Resolution Conference will be moved to a fully virtual format. We consider current circumstances as an opportunity to innovate an engaging virtual conference that will be rewarding for both presenters and attendees.

WHO SHOULD ATTEND:

Scholars: Connect with colleagues, and global stakeholders working in the fields of peace and conflict studies, international relations, diplomacy and conflict management; learn on issues and case studies from across the globe and pass on your knowledge and experience to others.

Government officials and policy makers: Learn about the best practices in international relations, peace building and conflict resolution, current political trends and more; network with other policy makers, scholars and NGOs working in the field of supporting conflict resolution and reconciliation, peace and security.

NGOs: Network with other international NGOs, possible donors and colleagues from around the world and share your achievements and strategies with others.

Graduate students: Meet your colleagues, make new friends, and improve your knowledge on the matter as well as your communication skills.

Others: Interested in making some positive changes around them and gaining new knowledge, skills and friends and becoming more useful to their own communities.
