

About Tomorrow People Organization *Who we are*

Tomorrow People Organization is a non-profit organization dedicated to helping individuals become educated and globally aware professionals, committed to enacting a positive change in the world. Our focus is on ethical education through exposure to diversity of thought and cross-cultural experiences.

We believe diversity is a treasure and our differences are complementary. We believe in learning through understanding different perspectives, as a necessary tool for transforming our ideas into workable solutions that would provide sustainable and continuous development of an individual and society as a whole. In order to achieve this, our programs are carefully designed to provide dynamic learning and networking experiences by hosting individuals with the most diverse professional, educational and cultural backgrounds.

Our vision

We believe in learning through others and transforming our ideas to provide continuous personal and professional development, using diversity as an important source of knowledge for greater well-being and sustainable development of our society and our civilization.

Our mission

To be a source of positive change for individuals, community and society as a whole. We deliver programs and conferences that are carefully designed to build inclusive connections, through creative, think tank environments.

Our values

Inspiring

Our programs are designed as an opportunity to step outside our daily routines. You will hear stories, learn new perspectives, and connect with people you would otherwise not have a chance to meet and spend three days with. And, being away from the noise of your daily life, you will be given a rare and precious opportunity to reflect on what you have already collected on your journey. Diversity of cultures, thoughts, perspectives and experiences represented in our programs create a perfect environment for inspiration and new ideas be born: whether it's an idea for a new project, new research, new collaborators or how to innovate and improve the projects you are already working on.

Impactful

We believe in education for life and education for change. Our programs offer opportunities to expand your knowledge and perspectives on subjects at hand. We connect people, building a community of globally aware individuals, that serve as a foundation for raising the new generation of leaders, a catalyst for change. Knowledge, contacts, inspiration and opportunities are taken back to our respective communities, creating a ripple effect by inflicting further positive change in the world around us. We also believe in giving back to community. This is why we support local organizations and partner with local entrepreneurs, wherever we go.

Inclusive

We involve people. We believe in diversity of thoughts and diversity of perspectives. We believe that every opinion matters and every voice deserves to be heard. We believe in collaboration and we see our differences as complementary. We believe that everyone holds a unique piece of puzzle that can only be revealed when we allow them to be their authentic selves. This is why our programs provide a safe space for different opinions to be expressed, different perspectives to be shared and different cultures to be represented, so that we can grow and evolve together, as individuals, as species and as civilization. We believe that only together we complete the puzzle.
